

# MARCH IS MYELOMA ACTION MONTH

## What is Multiple Myeloma?

- Second most common blood cancer
- Affects 750,000 people worldwide

## What are the symptoms?

- Bone pain
- Anemia
- Extreme fatigue

## What we do:

- Advocate for the myeloma community
- Foster collaborative research
- Empower people through education
- Provide support for patients and families

Call the IMF Infoline at **800.452.2873** or visit us at **[myeloma.org](http://myeloma.org)**
